INTERAVIA

Aeronautics • Astronautics • Electronics

Contents for Year 1969

MAIN ITEMS

No. 1 Aircraft for Anti-submarine Warfare
Trends in Air Transport Development
Professional Pilot Training

No. 2 Fifteen years of V/STOL technology
SST progress in East and West
Apollo 8 report

No. 3 Collision avoidance systems
The General Electric CF-6: a new generation turbofan
Digital data processing of ATC radar

No. 4 The US and Canadian Aerospace Industries
Apollo 9 — Lunar Module Test

No. 5 The 28th International Paris Air Show

No. 6 Comm/Nav Equipment for Light Aircraft
Progress Report on the Douglas DC-10

No. 7 The Paris Show in Retrospect
Apollo 10 Surveys the Moon
Navigation Systems for STOL Transports

No. 8 Man Sets Foot on the Moon
Electronics and Equipment at Paris
New General Aviation Aircraft

No. 9 Apollo 11 Mission Report
Tri-jet Evaluations by TWA and Air Canada
The Concorde in Flight Testing

No. 10 50 Years of Netherlands Aviation
Pillars of World Air Transport
Flight Recorder Survey

No. 11 Washington Convention of the NBAA
Aerodynamics of the Dassault Milan
The British Electronics Industry

No. 12 The Start of a New Decade
IATA Annual General Meeting
Boeing 2707-300 Configuration Development

CONTENTS FOR YEAR 1969

International Organizations

New plans for ELDO: 6/767
KLM hosts IATA's 25th AGM: 12/1931
Future Space Plans reviewed - W. Büdeler: 12/1944

Civil Aviation

a) Aviation Policy

Trends in Air Transport Development: 1/39
The Pacific route case: 2/117
Britain withdraws from the European Airbus: 5/464
Edwards reports on British Air Transport in the Seventies: 6/770
John A. Volpe startles the airlines 7/923
More on the Edwards Report: 7/925
Economic Aspects of the World Airline Industry — K. Hammarskjöld: 10/1645
Starting a New Chapter: 12/1891

b) Air Transport

The Swiss Airline Pilot Training School: 1/47
BAC's big-twin challenge: 1/51
The 40 Passenger DHC-7 STOL Transport: 1/73
The prospects for commercial VTOL: 2/143
VTOL and the airlines: 2/154
Short-haul Air Transportation in 1985: 2/157
Cutting airline costs by improved engineering and maintenance: 3/247
. . .Waiting for the Airbus: 3/289
Growth of US Supplemental Air Carriers: 4/368
Signs of Stress?: 6/705
Air Canada's Expanding Operations: 6/706
Edwards reports on British Air Transport in the Seventies: 6/770
DC-10 Development of production, operation, and maintenance techniques: 6/721
Advances towards STOL airline operation: 7/903
Future markets for transport aircraft: 8/989
Evaluating the new tri-jet transports:
How TWA and Air Canada decided on the L-1011 — M. Nibloe 9/1515
Latest Thinking on VTOL Transportation: 9/1563
The DHC-7 Revised: 9/1549
KLM celebrates its golden jubilee: 10/1636
KLM President welcomes the IATA delegates: 10/1646
Pan American sets up B.747 operation: 10/1661
KSSU's evaluation of the tri-jets: 10/1666
Eastern Airlines lays down V/STOL requirements: 10/1669
Operating company and consultant - Aéroport de Paris: 10/1711
Lockheed's L-500 weightlifter: 10/1670
Aspects of aeronautical research in Germany: 11/1817
Air transport as it enters the 1970s: 12/1892
Colombia's fifty years of air transport: 12/1902
Air transport development in the Pacific: 12/1905
KLM hosts IATA's 25th AGM: 12/1931

c) General Aviation

Aviation in American education: 1/42
Beech, Cessna and Piper training aircraft: 1/44
Specialist Flying Schools: 1/46
Flight Safety Inc.: 1/46
The Swiss Airline Pilot Training School: 1/47
The Ag Aviation Academy: 1/50
Piper presents the Cherokee Arrow 200 and the Six B: 2/114
For Private and Business Pilots: 2/180
Operating the Merlin 2B Executive Turboprop: 2/182
The Wing Derringer — a compact business aircraft: 3/282
Computation of weight and balance for general aviation — Barry J. Hawkins: 3/291
Sound prospects for general aviation: 4/358
General Aviation Show at Lausanne: 4/386
The SIAI-Marchetti/FFA 202 Bravo — a sturdy general purpose aircraft: 4/398
Cessna's 1969 Skywagon series: 4/400
Trends in Avionics for General Aviation: 6/710
A survey of available equipment: 6/711
King Radio ATC Transponder for Business Flying: 6/720
20th General Aviation Show in Reading, USA: 8/990
DC-9 as Business Aircraft: 8/992
The Britten-Norman BN-3 Nymph: 8/993
The Dassault Minifalcon: 8/994
The Sud-Nord SN.600 Corvette: 8/996

The L-410 Turbolet: 8/998
The Zlin Z-42 and Z-43: 8/1000
Beechcraft's latest model — the King Air 100: 9/1543
The hundredth Beech 99 Airliner: 9/1545
North American Rockwell presents ... Hawk Commander and Shrike Commander: 9/1546
The multi-purpose twin turboprop Sherpa: 9/1548
Is business aviation progressing?: 11/1773
22nd Annual NBAA meeting in Washington D.C.—M. Deskau: 11/1774
Business Aircraft at Dulles International Airport: 11/1776
A new honour for Olive Ann Beech: 11/1778
The Gulfstream 2 in the service of a large company: 11/1779
The transcontinental range Hansa Fan Jet: 11/1781
Cheaper, more comfortable, more efficient: New versions of the Learjet 24 and 25: 11/1782
A true executive helicopter: the Gates Twinjet: 11/1784
First Flight of the Cessna Citation: 11/1786
Garrett AiResearch engines for business aircraft: 11/1788
Jet aircraft for executive use: 11/1789
The Swearingen Metro: A made-to-measure feederliner: 11/1792
Business and Private Flying: 12/1900
Air-Glaciers—Mountain maid of all work—B. J. G. Davidson: 12/1921

Service Aviation

Nimrod for Maritime Reconnaissance: 1/54
The Atlantic maritime reconnaissance aircraft: 1/63
The ASW version of the Super Frelon: 1/68
The Sea King Anti-Submarine Helicopter: 1/70
Light Intra-Theatre Transport (LIT) — STOL or V/STOL?: 2/152
New US Military Aircraft Programmes: 2/115
All weather landing system for combat aircraft: 3/278
Technical evaluation of three medium-weight helicopters—Edwin J. Th. Kordik: 3/253
Ferranti Inertial Nav/Attack System for the Harrier: 5/597
Mission capability of the Corsair 2: 6/740
Lockheed answers C-5 programme criticisms: 8/1034
The Re-organisation of the Royal Air Force: 11/1803
The Military Aircraft Scene: 12/1895

Aircraft

a) Civil Aircraft

Beech, Cessna and Piper training aircraft: 1/44
BAC's big-twin challenge: 1/51
The 40 Passenger DHC-7 STOL Transport: 1/73
The future of the European Airbus: 2/116
SST in East and West: 2/168
Boeing 2707-300: 2/168
Tupolev Tu-144: 2/171
Sud-Aviation BAC Concorde: 2/173
Tupolev Tu-144 Flight Trials: 2/195
Piper presents the Cherokee Arrow 200 and the Six B: 2/114
Operating the Merlin 2B Executive Turboprop: 2/182
The Wing Derringer — a compact business naircraft: 3/282
The SIAI-Marchetti/FFA 202 Bravo — a sturdy general purpose aircraft: 4/398
Cessna's 1969 Skywagon series: 4/400
Concorde Flight Trials: 4/395
The Dassault Mercure: 5/623
DC-10 Development of production, operation, and maintenance techniques: 6/721
Performance characteristics of DC-10 aircraft versions: 6/725
DC-9 as Business Aircraft: 8/992
The Britten-Norman BN-3 Nymph: 8/993
The Dassault Minifalcon: 8/994
The Sud-Nord SN.600 Corvette: 8/996
The L-410 Turbolet: 8/998
The Zlin Z-42 and Z-43: 8/1000
Evaluating the new tri-jet transports
How TWA and Air Canada decided on the L-1011—M. Nibloe: 9/1515
Beechcraft's latest model—the King Air 100: 9/1543
The hundredth Beech 99 Airliner: 9/1545
North American Rockwell present ... Hawk Commander and Shrike Commander: 9/1546
The multi-purpose twin turboprop Sherpa: 9/1548
The DHC-7 Revised: 9/1549
Concorde in Flight Test—A Look at BAC's Fairford Activities—D. H. Chopping: 9/1520
Pan American sets up B.747 operation: 10/1661
Lockheed's L-500 weightlifter: 10/1670
The Gulfstream 2 in the service of a large company: 11/1778
The transcontinental range Hansa Fan Jet: 11/1781
Cheaper, more comfortable, more efficient: New versions of the Learjet 24 and 25: 11/1782
A true executive helicopter: the Gates Twinjet: 11/1784
First flight of Cessna Citation: 11/1786
The Swearingen Metro: A made-to-measure feederliner: 11/1792
The short-haul Mercure transport: an initial order which will attract others: 11/1806
Design development of the Boeing SST: 12/1911

b) Military Aircraft

Nimrod for Maritime Reconnaissance: 1/54
The Atlantic maritime reconnaissance aircraft: 1/63
The ASW version of the Super Frelon: 1/68
The Sea King Anti-Submarine Helicopter: 1/70
New US Military Aircraft Programmes: 2/115
Technical evaluation of three medium-weight helicopters—Edwin J. Th. Kordik: 3/253
The Grumman F-14 in detail: 4/384
A closer look at the Hawker Siddeley Harrier: 5/569
Design and operation of the Jaguar: 5/598
STOL and VTOL aircraft of the Soviet Air Force: 5/602
Mission capability of the Corsair 2: 6/740
The Canadair CX-84: 7/906
The Northrop F-5-21: Study of a Fighter in Evolution: 7/912
The Fiat G.91Y weapons system: 9/1525
The Dassault Milan: 11/1808
Developing a Military Jet Trainer — The BAC.167 Strikemaster: 12/1918

c) Missiles

Contraves Naval Weapon Systems: 1/80
Guided and unguided weapons: Europe shows its wares: 7/845
Messerschmitt-Bölkow presents the Kormoran: 7/909
The Roland Low-Altitude Surface-to-Air Defence System: 8/1023

Powerplants

Development of the General Electric CF6 turbofan: 3/273
The Viggen Thrust Reverser System: 3/276
Background to a big engine programme—progress with the Rolls-Royce RB.211: 5/549
Pratt and Whitney's JT9D big civil jet engine: 5/625
Two new powerplants for business and feeder aircraft: SNECMA-Turboméca Larzac and Garrett-AiResearch TFE731: 5/629
Fierce competition among aircraft engine manufacturers: 7/848
Status Report on the PT6: 8/1002
The General Electric CF6-50A: 10/1710
Garrett AiResearch engines for business aircraft: 11/1788

Electronics

Hyperbolic Navigation—History and Outlook—Prof. Dr. E. Kramar: 2/174
Realism in Flight Simulation: 2/178
Pictorial Displays for Air Navigation—C. Powell: 2/196
Development of Collision Avoidance Systems—Dieter H. Ebert: 3/258
All weather landing system for combat aircraft: 3/278
What's new in electronics?: 3/280 - 4/388 - 5/604 - 6/746 - 7/916 - 8/1025 - 9/1550 - 10/1693 - 12/1924
Digital processing of radar information in air traffic control—Dr. Ing. Heinz Ebert: 3/293
Avionics System Engineering: 4/365
The Growing Need for Head-Up Displays: 5/565
Ferranti Inertial Nav/Attack System for the Harrier: 5/597
Trends in Avionics for General Aviation: 6/710
A survey of available equipment: 6/711
King Radio ATC Transponder for Business Flying: 6/720
A step towards an automated ATC: The SRE-LL1 medium range radar—M. Kilz: 6/753
The Paris Show: Electronic Equipment Review: 8/1009
Developments in Microwave Devices: 9/1552
The Netherlands Electronics Industry:
Philips - An International Federation: 10/1631
NV Hollandse Signaalapparaten: 10/1634
Flight Data Recorders—AIDS to reduce confusion?: 10/1673
Flight Recording Equipment—10/1677
British electronics for aviation: 11/1820
Concorde—Electronic power plant control system: 11/1824

Astronautics

Space News in Brief: 1/21 - 8/1038 - 10/1599 - 11/1751
Apollo 8: achieves first manned moon orbit: 1/82
The Soyuz 4 and 5 Docking Mission: 2/118
Soyuz Spacecraft and Launch Vehicles: 2/184
Apollo 8 Astronauts report on their flight around the moon: 2/187
Apollo 9: testing the lunar excursion module: 4/381
Soviet and American Satellite and Space vehicle launches: 5/463
Space Reports: 5/628
New plans for ELDO: 6/767
European Weather Satellite Systems: 6/767
The Space Show at Le Bourget: 7/859
Apollo 10: next step the Moon: 7/879
Probing the mystery of Venus: 7/882
Man on the Moon—W. Büdeler: 8/961
The Mysterious Luna 15 Mission: 8/967
Progress in the Symphonie Programme: 8/1036
Space Activities in Federal Germany: 8/1036
New ESRO Projects: 8/1037
Space Probes investigate Mars, the Moon and the Sun: 9/1471
Apollo 11 Moon Landing—W. Büdeler: 9/1497
NASA's Manned Spacecraft Center: 9/1504
The Apollo programme in pictures: 9/1505
The Apollo astronauts' space suits: 9/1509
The Russian Seven-up: 11/1747

1969—an eventful year in space: 12/1898
Commercial applications of space research—G. W. Mueller: 12/1939
The General Dynamics Space Shuttle: 12/1941
Azur: the first all-German satellite: 12/1942
Future Space Plans reviewed—W. Büdeler: 12/1944
Apollo 12: 12/1865

Non-Electronic Equipment

Materials • Equipment • Techniques: 6/768
The Paris Show: A major display of equipment and materials: 8/1016
Book Reviews: 12/1946

Airports and Airport Equipment

Airport Safety: Improving Runway Conditions: 3/250
Operating company and consultant - Aéroport de Paris—H. Vicariot: 10/1711

Research and Technical

The prospects for commercial VTOL: 2/143
15 Years V/STOL Technology: 2/144
Light Intra-Theatre Transport (LIT) - STOL or V/STOL?: 2/152
VTOL and the airlines: 2/154
Short-haul Air Transportation in 1985: 2/157
SST in East and West: 2/168
Boeing 2707-300: 2/168
Tupolev Tu-144: 2/171
Sud-Aviation BAC Concorde: 2/173
Tupolev Tu-144 Flight Trials: 2/195
Hyperbolic Navigation—History and Outlook—Prof. Dr. Ing. E. Kramar: 2/174
Realism in Flight Simulation: 2/178
Pictorial Displays for Air Navigation—C. Powell: 2/196
The Soyuz 4 and 5 Docking Mission: 2/118
Apollo 8 Astronauts report on their flight around the moon: 2/186
Development of Collision Avoidance Systems—Dieter H. Ebert: 3/258
Digital processing of radar information in air traffic control—Dr. Ing. Heinz Ebert: 3/293
Technical evaluation of three medium-weight helicopters—Edwin J. Th. Kordik: 3/253
Development of the General Electric CF6 turbofan: 3/273
The Viggen Thrust Reverser System: 3/276
Computation of weight and balance for general aviation—Barry J. Hawkins: 3/291
Cutting airline costs by improved engineering and maintenance: 3/247
Airport Safety: Improving Runway Conditions: 3/250
Avionics System Engineering: 4/365
Concorde Flight Trials: 4/395
The Grumman F-14 in detail: 4/384
The Growing Need for Head-Up Displays: 5/565
Composite Materials in the Aerospace Industry: 6/733
Precipitation hardening stainless steels for aerospace applications: 6/744
A step towards an automated ATC: The SRE-LL1 medium range radar—M. Kilz: 6/753
Helicopter Development at Dornier: 7/910
The Canadair CX-84: 7/906
The Northrop F-5-21: Study of a Fighter in Evolution: 7/912
Study in the Symphonie programme: 8/1036
Space activities in Federal Germany: 8/1036
New ESRO Projects: 8/1037
Status Report on the PT6: 8/1002
Space Probes investigate Mars, the Moon and the Sun: 9/1471
NASA's Manned Spacecraft Center: 9/1504
The Apollo astronauts' space suits: 9/1509
Concorde in Flight Test—A Look at BAC's Fairford Activities—D. H. Chopping: 9/1520
Composite Materials will Revolutionize Aircraft Structures: 9/1528
Developments in Microwave Devices: 9/1552
The General Electric CF6-50A: 10/1710
Concorde—Electronic power plant control system: 11/1824
Aspects of aeronautical research in Germany: 11/1817
Design development of the Boeing SST: 12/1911
Commercial applications of space research—G. W. Mueller: 12/1939
The General Dynamics Space Shuttle: 12/1941
Book Reviews: 12/1946

Industry

Contraves Naval Weapon Systems: 1/80
The future of the European Airbus: 2/116
. . . Waiting for the Airbus: 3/289
Aerospace Trends in the United States: 4/349
Some major US aerospace companies: 4/351
Sound prospects for general aviation: 4/358
Canada's Unique Aerospace Structure—Industry Tour Report—D. H. Chopping: 4/360
Aviquipo—A worldwide service to aviation: 4/370
USIAS President comments on European aerospace industry: 5/515
The French Aerospace Industry present activities and prospects: 5/517
Current programmes: 5/519
Programmes of the Italian Aerospace Industry 1969: 5/545
Britain withdraws from the European Airbus: 5/464
A Survey of the Indian Aviation Industry: 6/736
The Most International of Air Shows (The Paris Air Show): 7/835
The Yugoslav Aircraft Industry: 7/884
Helicopter Development at Dornier: 7/910
Future markets for transport aircraft: 8/989
Lockheed answers C-5 programme criticisms: 8/1034
50 years of Fokker: 10/1626
The Netherlands Electronics Industry
Philips—An International Federation: 10/1631
NV Hollandse Signaalapparaten: 10/1634
The Future of the European Aerospace Industry: 10/1625
British electronics for aviation: 11/1820
The 1968-1969 USIAS report: 11/1826
Short Brothers & Harland Break New Ground: 12/1914

Airports and Airport Equipment

General Aviation Show at Lausanne: 4/386
28e Salon International de l'Aéronautique et de l'Espace: 5/524
The Most International of Air Shows: 7/835
Guided and unguided weapons: Europe shows its wares: 7/845
Fierce competition among aircraft engine manufacturers: 7/848
The Space Show at Le Bourget: 7/859
The Paris Show:
Electronic Equipment Review: 8/1009
A major display of equipment and materials: 8/1016
20th General Aviation Show in Reading, USA: 8/990
22nd Annual NBAA meeting in Washington D.C.—M. Deskau: 11/1774
The 1969 NBAA Show: 11/1775
Business Aircraft at Dulles International Airport: 11/1776
A new honour for Olive Ann Beech: 11/1778
KLM hosts IATA's 25th AGM: 12/1931
Future Space Plans reviewed—W. Büdeler: 12/1944

Miscellaneous

INTERAVIA Air Letter reports . . .: 1/19 -2/111 - 3/227 - 4/325 - 5/443 - 6/677 - 7/799 - 8/962 - 9/1467 - 10/1595 - 11/1743 - 12/1861
Viewpoint: 1/22 - 3/230 - 4/328 - 5/465 - 6/680 - 7/802 - 8/1039 - 9/1472 - 10/1600 - 11/1748 - 12/1866
What's in the Air?: 1/74 - 2/191 - 3/284 - 4/390 - 5/619 - 6/756 - 7/862 - 8/1028 - 9/1554 - 10/1695 - 11/1828 - 12/1934
